### **CONCLUSION**

“Dear my friends of Suzanne Beck’s Group,

Am happy to send you my sincere appreciation for the kind support you have been sending me through H4WI. This support was like a cool water passing through a dry ground. You have made my heart to settle. I used to live a life of stress because of the family pressure on me as a widow but now am happy. My children too are happy and very thankful for your support. Through your support I have been able to do business, bought a goat, a pig, a mattress, a sauce pan and also save 5,000 shillings per week for other family emergency needs. Thank you so much for loving me and changing my story.

God bless you”

Bye for now.
