Margalen Alowo

Margalen is 50 years old. She is the first born out of seven children. She never went to school because she lacked school fees. In 1985 she got married to her husband John. He was a peasant. They had 5 children; Peter 28 married but no child yet, Rosemary 19 married with 2 children, Tadeo 17 in P.4 class, Gabriel 15 in P.6 class and Jane 13 years in P.7 class. In 2014 her husband died abruptly. Margalen has no current business due to lack of startup capital. Her prayer is that when God opens the door and she gets support for a business, she will start a business of buying goats. This she believes will change her story. Margalen is fine according to her. Through the H4WI program she believes that she will be able to do business, afford basic necessities for her family with ease, educate her children and save for other family needs.
