Gladys Mukimba

Gladys is 30 years old. She is the last born out of nine children. She dropped out of school in primary six because she lacked school fees. In 2004 she got married to her husband Edward. He is a peasant. They have six children; Marion 16 married with 1 child, Benard 11, Joel 10, Angel 6, Evans 4 and Joritah 1 year. Her current business is selling of silver fish with a capital of 40,000 shillings. The profits she gets is not enough to sustain the business. Her prayer is that when God opens the door and she gets support for her business, she will expand her business for more profits. This she believes will change her story. She sleeps in a semi permanent house. Gladys has eye and teeth problems which have disturbed her for the last three months. She gets treatment from the nearby health center. Through the H4WI program she believes that she will be able to expand her business, afford basic necessities for her family with ease, educate her children and save some money for other family emergency needs.
